**Mepaco introduces Continuous Cookers, the latest addition to our family of thermal processing solutions.**

**Whatever You're Cooking.** Our Continuous Cookers are designed for continuous reliability when cooking pizza crumbles, meatballs, shrimp, rice, pasta, fruit, vegetables and a variety of portioned meats.

**Name Your Capacity.** From 50 lbs/hr, up to and exceeding 10,000 lbs/hr, Mepaco will engineer the solution your operation requires.

**Steam, Water, Oil, and More.** Our Continuous Cookers are designed to give you what you need, when you need it: Direct / Indirect Steam, Oil / Water Immersion or Thermal Screw configurations offer a variety of processing options from which to choose. Our patented scraper design minimizes surface burn-on for efficient heat transfer.

**Top Quality, Fast Ship.** Mepaco cookers are designed in-house and built by our own ASME certified welders. As a result, quality workmanship and expedited delivery can be expected.

**Mepaco and Thermal Cooking.** Food processors have relied on Mepaco for stuffing, grinding, blending and material handling solutions for decades. Our Continuous Cookers are engineered with the same reliability that has been found in all Mepaco products since 1932.

Quick Release Seal

On-Board Heat Exchanger

Pressure Regulator

Continuous Filter for Debris
