ROLLSTOCK THERMOFORMER

EVOLUTION LEADS TO REVOLUTION

**DURABLE
CUSTOMIZABLE
INCREASED SPEED**

MEET THE  **- SERIES**

RELIABLE

The R-Series Rollstock Thermoformer from VC999 is built upon over 50 years of packaging industry knowledge. While the industry has changed over time, we have machines over 30 years old still in service.

REPUTATION

Born from one of our top-performing packaging machines, the RS Rollstock Machine, the new R-Series has a long pedigree of reliability. With the ability to customize each unit, this machine can meet both your current and future packaging needs.

REFINED

Based on our best-selling Rollstock machine. We built the R-Series to be the next-generation of packaging machines. The new R-Series design has numerous features that will enhance productivity while reducing labor and maintenance costs.

RESULTS

In a competitive market, results matter! That's why our focus is on finding ways to increase your production speeds. Package more products, faster, with the VC999 R-Series Rollstock Thermoformer.

PACKAGING TYPES

R-SERIES RUNS FLEXIBLE, RIGID, SKIN, SHRINK, & EASY PEEL FILMS

SPEED

- Lift design optimized to increase your production speeds.
- Controls with faster processing speeds.
- Valve placement increases machine reaction speeds.
- Machine overall speed and capabilities are increased by 15-20% over previous generation of Rollstock machines.

SERVICEABILITY

- Routine maintenance is simple with easy access to all serviceable parts.
- External access to chain tensioning for easy adjustments.
- Long-lasting o-rings and gaskets that minimize down-time.
- VC999 guaranteed 10-year parts availability.

HYGIENIC

- Angled surfaces eliminate pooling.
- Standoffs in paneling for easy cleaning.
- Washdown rated Igus bearings.
- Chain guides with nylon standoffs.

SAFETY

- The R-Series is **CE, UL, & CSA** certified meeting global standards for efficiency, cleanliness, health, and safety.
- Optical and Magnetic sensors trigger automatic safety systems to prevent operators from reaching in during machine operation, maintenance, and cleaning, ensuring safety.

REMOTE ACCESS OPTION

- Troubleshoot in real-time remotely through a secure Ewon network connection.
- Allows customers to address small problems quickly and efficiently with out the added travel costs for Service Techs.

SPECIFICATIONS

Standard Machine Widths	285 / 320 / 355 / 420 / 459 /520 / 560 / 620 / 720 mm
Max. Index Length	up to 650 mm(with preheating 325 mm max)
Standard Loading Lengths	1300 - 3300 mm
Standard Discharge Lengths.....	750 - 3000 mm
Draw Depths	100 / 135 / 185 mm
Film Roll Diameter	up to 400 mm (standard) / 1500 mm (jumbo)
Roll Core.....	76 mm / 3" (standard)152 mm / 6" available
Power Supply	220/440V - 3 ph - 50/60hz
Compressed Air	min. 7 bar (103 psi) @ 850 l/min.
Certifications	CE, UL, and CSA certified

OPTIONS

- Automatic Chain Lubrication
- Coding & Printing Devices
- Confirmation Station
- Conveyors
- Customized Form & Sealing Tooling
- Gas Testing Devices
- Heavy Product Support
- Hole Punch Devices
- Jumbo Power Unwind 1500 mm
- Labeling Devices
- MAP Gas Options
- Multiple Cutting Options
- Plug Assist
- Printed Film Registration
(Slot Sensor or Color Photo Eye)
- Product Support Wire
- Remote EWON Access
- Shrink Application
- Sandwich Preheat
- Seal Only
- Skin Pack
(Below Web Line)
- Tear Notch
- Water Chiller
