

Known for Reliability Since 1921

The Biro Model AFMG-52 (Auto-Feed Mixer-Grinder) is the ideal workhorse for large supermarket meat rooms and medium sized processors and HRI plants. Its 7.5 hp (5.6 kW) motor (or optional 10 hp, 7.5 kW motor) provides a production output of up to 100 lbs. (45.5 kg) per minute to give you the productivity you need.

The heavy duty roller chain auger drive system with tapered roller bearing journal box is separate from the heavy duty mixer motor interface gear drive system. This more efficient design transfers maximum torque power to the auger. The heavy duty stainless steel 200 lb. (91 kg) hopper and frame resist corrosion and damage, even in an environment of harsh cleaners. Your mixer grinder lasts longer and gives you more return on your investment. Power, durability, and low maintenance make the Biro Model AFMG-52 Auto-Feed Mixer-Grinder a meat room workhorse.
