Mix your product FASTER and EASIER

Use a Leland Southwest "DOUBLE ACTION" Food Mixing Machine

The LELAND SOUTHWEST "Double Action" Food Mixing Machines will mix most products thoroughly in only three to four minutes.

LELAND SOUTHWEST accomplishes this with our famous patented "Double Action" mixing paddles. To ensure a thorough blend, the two sets of paddles not only rotate in opposite directions, but also rotate at different speeds. The gentle blending action of the LELAND SOUTHWEST Mixer provides a thorough mixture while maintaining product integrity. This fast and easy "Double Action" principle is a necessity if your product contains fragile ingredients which must be dispersed evenly everytime.

LELAND SOUTHWEST mixers range from fifty pound to eight hundred pound capacities with product applications that include: MEAT, SALAD, DOUGH, SPICES, SAUCES and many INDUSTRIAL products. LELAND SOUTHWEST Mixers have successfully and profitably mixed:

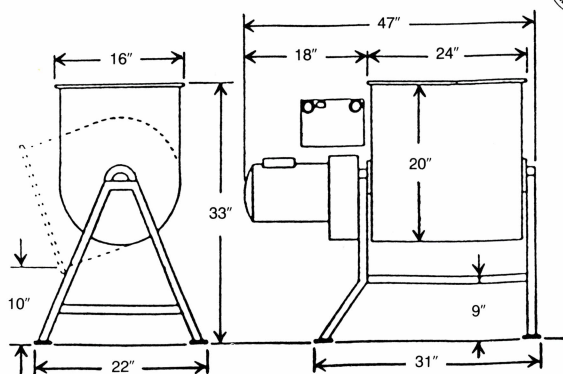

ground beef	pizza sauce	incense
sausage	salad dressing	putty
deviled crab	eggroll stuffing	pharmaceuticals
potato salad	soup	mineral slurries
salmon salad	cake icing	fertilizer
dry spices	candies	wax products
gelatin powders	dry cake mixes	styrofoam beads

Mixing Capacities of 50 to 800 pounds
